# ZERO MAX folders

## INNOVATIVE PRODUCT

Expandable folder with poly-prongs. A modern alternative to traditional lever arch files. It stores up to 800 sheets of paper (twice as much as a standard lever arch file). The Zero Max system, with its expandable spine, can adjust its volume depending on the number of documents inside. In case of storing few sheets, the file keeps its narrow spine, i.e. does not create „dead space“. Made of recycled materials. Suitable for storing documents in sheet protectors.

SAVE MORE SPACE!  
Adjustable width of the spine

## zipper pouches Bagatella

Make your everyday life easier with a zipper pouch! This stylish handbag made of soft-touch EVA material is perfect for organizing, storing and carrying your items in one convenient place. Reinforcement in the form of a thread placed inside the fabric during the production process prevents tearing of the material and gives it greater strength. The pouch is ideal for storing documents, writing instruments, cosmetics and more. Whether you're traveling or need an easy way to protect your everyday items, you'll enjoy hassle-free organization with our pouch.

# chair mats

## PERFECT FOR HOME AND OFFICE!

Polycarbonate, highly transparent, non-yellowing floor mats provide the best floor protection for any home or office space. Hard floors as well as carpets covered by a mat are protected from wear and tear caused by moving chairs or heavy objects. They muffle the sound of chair wheels. When the floor mat is placed under flowerpots, it protects the floor from dirt and moisture. Rounded corners prevent from tripping. Mats are suitable for underfloor heating, durable and resistant to damage in accordance with DIN EN 425 for Personal protective equipment.
